

Northern PWS Coastline from Esther Passage (west) to Glacier Island (on east):
(Olsen Island is the common landmark on both charts)

2009 MD survey between **red** and **green** lines. North of **green** line has very little marine debris. South of **red** line was cleaned in 2007.

MD in the northern PWS area is generally very light. Small accumulations of MD denoted by **♦**
